ONE DAY, FEWER LOOSE ENDS

Reykjavík day planner: a simple plan with room to change

Start with the one thing you most want to do. Group nearby stops around it, leave time to eat, and give the return journey the same attention as the way out. This sheet keeps the useful questions together without prescribing a packed itinerary.

Before making reservations

- ☐ **Choose the day's main stop or activity**
- ☐ **Check the actual opening hours for that date**
- ☐ **Look at the weather for the hours spent outside**
- ☐ **Keep an indoor or nearby alternative**

Getting there and back

- ☐ **Check the journey, stop and direction with Strætó**
- ☐ **Choose the payment method and read current ticket rules**
- ☐ **Check a usable return journey, not just the outbound trip**
- ☐ **Allow time for the walk to and from the stops**

The ordinary details

- ☐ **Choose where a meal or grocery stop fits**
- ☐ **Refill the bottle before leaving**
- ☐ **Save the address and booking details offline**
- ☐ **Leave an unallocated hour instead of adding one more stop**
